| 8/10/02   | 1715   | MSG<br>(INF)            | NARR- Very confusing admission scenario. I/M sent directly from SNV to Infirmary today at 1000, no report, no phone call, no explanation given to this RV. After several phone calls (10), finally spoke to SNV Unit Manager who decided this I.M., who was admitted to SNV PH of 8.18.02 @ 7:51, belonged in a Loc cell. No medical personnel including Psychiatry, Nursing, or Supervisors were notified of this decision. I/M admitted to hard cell (Loc) until the scenario was sorted out. Psychiatry-in-patient has no knowledge of the going on in this admission & feels it inappropriate to admit I/M to Infirmary at this time. I/M was not seen in Dependency for eval today prior to being sent to Infirmary, nor was Psychiatry contacted to evaluate today until I/M arrived in Infirmary. Nursing supervision & covering psychiatrist notified of our difficulty. On call psychiatrist called & orders obtained for this admission. Mark Hall on |

Pt became increasingly agitated  
& threatening when told we were

not going to get / give enema.

Pt came over the desk, saying  
about "you denying me medical  
care" We tried to explain

that we need to do procedure.

20 hr abdominal surgery &amp; pain

No. "Fuck you I ain't going down"

Pt was asked to leave the area  
of his threats were made.

He left with the go home to RPN should things become worse for him. |
